We are searching the following new position within our production plant Datamars Slovakia s.r.o. based in Nitra

Supply Chain Manager

KEY RESPONSIBILITIES

Within the plant organization, the Supply Chain Manager is accountable for inbound and outbound Material flows, Warehousing and Transportation, Inventory management, Customer Service (order management, invoicing process, back office), After Sales Service (Repair Center) with a dedicated team. The Supply Chain Manager of Datamars Slovakia reports in solid line to the Head of Global Supply Chain based in Switzerland and in dotted line to the General Manager Datamars Slovakia.

MAIN DUTIES

Supply Chain

- Balance unconstrained supply plan with factory constraints working in sync with HQ functions
- Integrate activities across the organization's matrix (procurement, production, HQ Supply Chain) ensuring information visibility on inventory levels, anticipated productions, and materials-in-transit
- KPI reporting
- Root cause analysis and corrective actions implementation

Warehouse and Transportation

- Logistics inbound/outbound planning (organize and follow-up shipments, transportation issues and customer requirements)
- Apply a total system's approach in order to design and manage the entire flow of information, materials, and services — from raw materials, suppliers, through the factory and warehouse, and finally to the customer (external and Inter Company)
- Manage transportation operations, including Incoterms and Custom duty
