

## Accountant – Brisbane

- **Utilise your business acumen to influence, refine & improve processes**
- **Through analysis, support & provide insights to sales, marketing, operations**
- **Financial & accounts management; CA ideal; opportunity to step into corporate**

**Lead the accounting function for our Australian operations; interact & assist our reseller network; support the management team to grow market share.**

---

If you're action and process oriented, enjoy interacting across all levels of a business, genuinely enjoy working alongside a leadership team to provide useful insights, this role, combined with your naturally engaging interpersonal skills, will provide opportunity to collaborate, influence and improve the way in which we report and ultimately capture real time data to assist in optimising business revenue.

Reporting directly to our Financial Controller in NZ, the scope of the role will have you involved in a number of tasks including:

- Management and preparation of financial month end reporting and analysis including cash flow forecasting, sales reporting and assisting with preparation of capital expenditure and budgets
- Maintenance of SAP Business One GL and reconciliations of balance sheet accounts
- Statutory reporting, liaising with external auditors and tax advisors
- Day to day banking, cash book and credit card reconciliations
- Management and overseeing accounts payable/receivable
- Payroll – salaries and wages in conjunction with external provider (50 employees)
- Maintenance of the fixed assets register
- Sales reporting and analysis
- Reconciliation and maintenance of inventory in SAP
- Health & Safety – complying with State and Federal H&S legislation

You may be recently CA qualified with proven business experience in a small to medium enterprise or a large accounting firm, striving for career progression or qualified by experience in a number of roles and organisations bringing maturity to the way you operate and be someone who prospers being the go to person for all things financial.

Equipped with the experience to undertake the key day to day responsibilities of this important role for our Australian operations, you'll have intermediate Excel knowledge, ideally exposure to working with SAP, be highly organised, pragmatic and confident and enjoy playing a coaching and supportive role. With innate communication and relationship building capabilities, you'll take a level headed approach in all you do and take pride in delivering accurate financial reporting and outcomes.

Working with a supportive and respected Financial Controller who will provide guidance and give you the scope and responsibility to get on and deliver, this could be a career enhancing opportunity to consider. On offer is a market competitive base salary plus superannuation, car parking and flexible working hours.
